WHY NOT BOTH SIDES?

Advocates for both outfall and land type sewer alike voted for the re-election of the sanitary board here Monday, thus assuring them that they feel they will give the taxpayer every break when it comes to the installation of the much needed sewer system.

Advocates of the outfall system, and there are many, ask only that an investigation be made by an unbiased engineer who has installed outfall systems and believes in them, and that the people may be enlightened as to the cost of construction and upkeep.

This seems a most reasonable request and it is not likely that the board nor any advocates of the plan to install the system on the island will wish to force their plan down the throats of taxpayers. With an investment of around $60,000 looming ahead, the board should appoint the committee suggested by its chairman at a recent meeting and give them power to make investigations as to the feasibility of the outfall system. These men, William P. Silva, Kent Clark and Joseph Burge, will not be unreasonable, and knowing them as we do, we are sure that should they find the outfall not suited to this locality they will at once give solid support to the plan as outlined by the board.

Only in this way can we have harmony, and only this way will we be able to secure a bond issue for the new system which Carmel must have soon.

VOTE TO SAVE BEACHES

In thinking over the amendments to be presented on the ballot in November, please bear in mind that Proposition No. 4 should carry if the people of the state wish to see the beaches preserved. Proposition No .4 will stop tideland drilling. It authorizes the tapping of rich state-owned coastal oil pools by slant drilling, with royalties therefrom to go to purchase and upkeep of public parks, funds for which are virtually exhausted. Vote YES on No. 4.

FOSTERS CLASS HATRED

Strikes and civil war brought to our doorway bring home the fact that the administration has fostered class hatred, and has refused to deport aliens, many of whom we find at the head of the troubles.

Information now comes that ten aliens, some of whom only entered the United States last year, are employed in Washington by the New Deal administration at high salaries, in more or less key positions paying from $5,200 down to $3,000 per year.

In line with their appointment comes that of David J. Saposs, active in radical extremist movements, to a

GOLDEN BOUGH PLAYERS TO BE REHEARSING SOON

The Golden Bough Players will soon be adding their bit to the fame of Carmel's winter program of dramatics.

According to Edward Kuster, director, some tentative selections of plays have been made and the titles will be announced soon.

Carmelites may attend the Golden Bough plays this winter and imagine they are back in the old days since the Green Room is to be restored to its former glory, the proscenium arch restored, and the plays held here.

One hundred twenty-five of the Golden Bough chairs, all newly upholstered, have been placed in the green room.

Mr. Kuster expressed himself as much pleased with the response to call for players and says many have registered as available as soon as the play is ready to cast.

MISSIONARY SOCIETY TO HEAR MRS. CHAS. DRAPER

Mrs. Charles E. Draper of Pacific Grove will address the Carmel Missionary society on "Better Race Relations" at the Community Church Tuesday afternoon, Sept. 22, at 2:30 o'clock. The public is cordially invited.

DO YOU WANT TO BE INFORMED

If, as a patriotic citizen, you want an accurate, dependable report upon the operation of our national government, then tune in on KGO every evening for details see Radio Log in your daily paper. Ask your neighbor to do this. Call up five people and tell them of this Radio Program. Ask them to carry this message to others. Some will tell you that it is Republican propaganda. Say yes. But ask the skeptic if any Democrat or New Dealer can challenge any single statement made. If you believe in America it behooves you to learn something of the perils facing us at this hour. Make yourself a committee of one to publicize the Wm. Hard Program on National Affairs. Help Save America.

CALIFORNIAN PRESENTS PICTURE BY WM. SILVA

The picture presented this week is a reproduction of an oil by William P. Silva, well known Carmel artist, whose pictures have won many prizes.

The scene is from Mr. Silva's former home in South Carolina and visitors to his gallery on Saturday afternoons may see many such beautiful pictures, as well as those of California's charming spots.

"DISCOVERY DAY" TO OPEN DRIVE ON DRIED FRUITS

The weeks beginning October 12 and October 19 have been announced as the dates for the nationwide sales drive on California dried fruits, a movement launched by 37,000 chain stores to help a $35,000,000 industry.

"October 12 is Discovery Day, commemorating the arrival of Christopher Columbus in America," said Philip Bancroft, chairman of the California Dried Fruit Stabilization committee, in announcing the sales drive dates. "This year it's going to be discovery day for many an American family which hasn't known the delicious food qualities of California dried fruits. Attention of mothers and housewives will be attracted by displays of dried fruits in chain stores and we are assured that their fine food value will stimulate buying."

Noel Sullivan is now on his way to Europe and plans to visit in Paris where he studied music some years ago.

MRS. SLEVIN'S MOTHER DIED SEPTEMBER 8th

Carmel friends will sympathize with Mrs. Luis Slevin in the death of her mother, Mrs. Mary O'Connell, 78, who passed away at a hospital in Boise, Idaho, Tuesday, September 8.

Two daughters survive, the other being Mrs. Harry Mefford of Decker, Montana; and three sons, W. B. O'Connell of Chicago; J. A. O'Connell of San Francisco and Leo O'Connell of Boise.

Mrs. Slevin went to Boise and was fortunate in arriving before her mother passed away. She has returned home.

Carmel folk who saw Miss Barbara O'Neill in rehearsals here for Counsellor at Law, will be interested to learn that she has been given the part of leading lady in a stock company at Suffern, N. Y. Miss O'Neill was compelled to leave Carmel before the play was given but those who saw her recognized her charm and ability. She is a niece of Miss Elsa Blackman of Carmel.

MAN'S BEST FRIEND

Who brings my slippers night and morn,
Where love's a rose without a thorn;
Whose eyes are never closed in sleep
Till slumber o'er my senses creep,
Who keeps the home-fires lit and bright,
Who smiles and reads to me at night,
Who does this with no greed for pelf,
I ask you who?
I DO MYSELF.

LOCAL CHAPTER TO MAKE GARMENTS FOR VETERANS

A total of fifty garments will be made during the next year by the production group of Carmel Chapter, American Red Cross, for hospitalized service and ex-service men with limited funds in Government hospitals, it was announced today by Mrs. Mc Intyre, Chapter Production chairman.

"We are appealing to the women of our community to help provide a few extra comforts for the hospitalized men, who appreciate this evidence of friendly interest shown by Red Cross Volunteers," said Mrs. Mc Intyre. "What are most needed, at this time to meet the requests t hat come to Red Cross are sweaters (sleeveless, slip-on with sleeves and coat sweaters), knitted woolen socks, afgans, bathrobes, bedjackets and pajamas."

"Just a few hours of volunteer service every week by those who have the time to give will help us make life a little more worth while, a little brighter and more cheerful for those thousands of men who are destined to spend their lives in hospital beds and wheeled chairs. Those who are willing to devote a little of their time to this service will please call Miss Leslie King at the Chapter office."

This work for Red Cross is in addition to the community relief program which the chapter has been conducting throughout the year for the children and the unemployables of Carmel.

WEEP NOT

Dear heart you should not weep and mourn
For the loved one from your arms now torn,
Look up and smile and try to see
God's will, and good will come to thee.
The passing beyond always seems to me
Like a ship that is sailing out to sea
Farther and farther in distance dim
To sink at last 'neath horizon's rim.
We know it is sailing steady and true
Although it has passed beyond our view
For a master hand is at the helm
Guiding it to its future realm.
And though our friends return no more,
Loving messages come through the air
From their future home, just Over There.
His journey on life's sea is o'er,
While you are left on the nearer shore.
Beyond the horizon you cannot see
To the farther shore where he waits for thee.
It is only a question of years at most
When we shall join that heavenly host,
And be with the loved who have left us here,
So look up and smile and shed no tear.

GIVE A CHEER FOR MAINE

Maine, Maine, hurrah for Maine,
Has come back, sound and sane,
Passamaquoddy proved in vain,
"Not for sale" the vote of Maine.
Disheartened the Tammany Twain;
F.D.R. and Farley both in pain.
Maine, Maine, rockbound Maine,
With honest folk of sturdy strain,
Sets a record to maintain,
Conscience and courage together reign,
Their self respect they retain,
Boondoggling failed to gain
The support of honest Maine,
"Not for Sale" they answered plain,
Loyal to America we remain.
The New Deal with its sham and feign,
Bribery and cheap chicane
Received rebuke from Pine Tree Maine.
The horrors of France and Spain,
The New Deal, a similar bane,
Swarming with REDS in its train,
Gets a shock by the vote of Maine.
Let us all take cheer again,
Freedom, and all that's sane,
Will exterminate the Carmine stain;
The Stars ad Stripes still remain
The banner of the State or Maine.
"Not for Sale" Bribes could not obtain
The Pine tree Vote—or enchain
In Farley's "bag", a leaky seine.
The crafty schemes of New Deal brain
Met with rebuff and disdain,
Bribes and Bounties—under guise humane,
Failed to debauch the Vote of Maine.

CONSTITUTION AND RIGHTS

Our Constitution stands for self-government; individual rights; religious freedom; freedom of speech and of the press; right to petition the government for a redress of grievances. Citizens rights to privacy and security. The right to trial by jury. No one can be deprived of life, liberty or property without due process of the law. Exclusive right to possess, enjoy and dispose of everything subject to ownership—real or personal.

Are we enjoying the above under the New Deal? NO. The United States mail has just been held up; a steamship liner with over four hundred passengers held up for almost a week.

Does all this coincide with our constitution? It does not. Does the farmer, business man, property owner have liberty? He does not. The one and only redress we still have is THE SUPREME COURT. Without it we would have no single standard for AMERICAN CITIZENSHIP, but would have instead forty-eight different standards of STATE citizenship. Removal of our constitution would destroy our country, our liberty would be gone, and we would become not INDIVIDUALS but mere material taking any form that those in power would force us into.

RAPHAEL'S MADONNA IS LOCATED IN TEXAS TOWN

The following taken from the New York Evening Post of March 16 will undoubtedly prove of interest to many patrons of art in Carmel:

"Through the years, tens of thousands have stood before the 'Madonna dell' Impannata' in the Pitti Palace at Florence and admired it as a masterpiece of the great Raphael.

"And now it turns out to be a fake. Pasquale Farina, a Philadelphia restorer, has proved to the satisfaction of Italian experts that he possesses the original work of Raphael, and that the picture in Pitti Palace isn't even a good copy.

"Official admission that the Pitti Palace picture is a counterfeit is more than a tribute to the discernment of Professor Farina, who recognized the original when he found it, charred and filthy, twenty-four years ago, in Texas (of all places).

"While admirers stood reverently before the Pitti Palace copy, where was the original?

"It was hidden at first, perhaps, in the vaults of the Altoviti family which owned it, and which probably had the fake made to foil confiscation of the original. Then apparently it was knocked around amid the disorders of Europe, now loot on a soldier's back, now the merchandise of a cheap art dealer, now the proud posession of a middle class family.

"How did it get to Texas? Did some recently enriched family buy it as part of a load of antique 'culture' on a quick trip to New York? Or did it come up from Mexico with the Spaniards? Or was it painfully lugged across the plains by some pioneer family which knew its beauty but not its worth in money?

"The picture they say is worth a million now. The picture's story which will never be told, might be worth as much."

COMMITTEE SUBMITS PROPOSAL TO SANITARY BOARD

To the Carmel Sanitary Board:
Gentlemen:

We respectfully submit the following recommendations for your consideration:

FIRST—That the committee composed of William Silva, Joseph Burge and Kent Clark requested by Chairman Hugh Comstock on Aug. 13 to employ an engineer with experience installing outfall sewers be now confirmed.

SECOND—That the report prepared and dated as of June 4, 1936, by Mr. H. F. Gray in collaboration with Mr. Clyde C. Kennedy ge now completed to include:

a. The actual cost of the land on which he proposes to build the plant.

b. Actual cost of land for right of way on which to carry the sewer, build the trestle and suspension bridge etc over which the sewer must be carried to the island site. (Chairman Comstock stated on Auguest 13 that the owners of this property have NEVER BEEN ASKED what price they would place on this property and further stated that if they refused to sell or held the price too high, court action would be taken to have the land condemned and owners forced to sell at a price fixed by the court.)

c. That the report show the actual cost of boosting the Scenic Drive sewage over the hump to the island site all of which was omitted from Mr. Gray's report.

THIRD—That the Sanitary Board render a complete financial statement showing; cash on hand, annual income and itemized expenses for the past year to date.

We want to emphasize the fact that up to this time no actual survey as to the possibilities or costs of an outfall sewer has ever been made here. Therefore any figures or objections submitted to date on that type are mere guesswork.

Carmel Citizens want a proper disposal system installed but will insist the Sanitary Board provide unbiased and unprejudiced information with honest, correct and reliable figures for both land and outfall types before being called on to vote a bond issue.

In other words, the taxpayers will not buy a pig in a poke nor sign a blank check for the Sanitary Board to install the proposed land type, at a cost of an UNKNOWN amount upwards of $60,000 with an annual operating cost of over $3,000, according to Mr. Gray's figures.

Thanking you for your attention,
Yours very truly,
The Taxpayers' Council

Giving Hollywood a Tumble

By Katherine Brocklebank

Interesting excerpts from the Spectotor's Easy chair. "The screen and the stage do not share the same necessity for meticulous enunciation in the reading of lines. Voice projection is not an element of screen dialogue. The camera moves so close to characters on the screen we can follow intimate conversations without conscious effort to catch every word. As a matter of fact, in such conversations our ears function to catch only the key words, only those essential to our understanding what is said. We do not really hear the thes, ands and buts. When we are addressed by a man a considerable distance from us, he must enunciate each word distinctly to convey his meaning to us. When you say to your wife at your side, 'The key is under the doormat,' she really hears only 'key' and 'doormat' but if you shout the message from a distance, you stress each word to make your meaning clear. The stage player must stress each word to carry his meaning to the top gallery, but the screen player is under no obligation. His hearer is at his side and the microphone attends to the fellow in the top gallery. Thus screen conversations lose their naturalness in the degree they adopt stage diction. Training in stage technique will unmake more screen players than it will make." Properly trained stage actors never shout. They can whisper and still be heard to the top gallery.

"As long as our motion pictures devote so much footage to the spoken word, they might as well go all the way and occasionally strive to develope some of the beauty of our language. It is seldom a picture gives us a speech worth listening to on its own account and apart from its contribution to the story. It is not so much what Shakespeare says as it is his beautiful way of saying it that has made him the world's first dramatist. His speech is music.

Efforts to bolster attendance at film theatres by sprinkling vaudeville acts through screen programs is not proving successful, according to Don Carle Gillette in Film Daily. It has always been the contention that an audience seeking motion picture entertainment never will be satisfied with anything else. It is a sad commentary on Hollywood's brand of such entertainment that old fashioned vaudeville is resorted to by exhibitors to fill seats which our motion pictures leave empty. The trouble with Hollywood is that it thinks in false entertainment terms, that it is concerned more with its material than its medium. It runs to star names, biographies, classics, spectacles — anything except the thing that made it great; the ability of the camera to tell a story with a flow of moving pictorial impressions. For the flow of motion which was responsible for the most spectacular industrial success in the history of the world, Hollywood has substituted the spoken word which the stage, in the twenty-five centuries of its existence, did not succeed in making industrially inmportant. It is hard to believe, but there it is!"

20-th Century-Fox is searching madly for 36 beautiful girls and 24 handsome young men to provide a chorusgroup for 3 big ice-skating dance numbers in the film which will debut Sonia Henie, famous ice-skating star. So if any young men and beautiful Carmelites have ever learned to skate on anything but their ears, give Century-Fox a buzz.

NEWS, BUT NOT GOOD NEWS

The Director of the National Budget latest estimate for 1936. Cost of government, approximately EIGHT BILLION. Approximate income from all sources FIVE BILLION. Deficit, THREE BILLION. Where will that deficit come from? Answer: out of the pockets of the poor people of America. It will be a part of every loaf of bread, it will appear in your pork chop and bob up in your tea, milk and coffee. Remember, good friends, givernment bonds are no longer considered as safe investments. Only Banks buy them and they under coercion. In face of all this the President, Franklin Delano Roosevelt, says that our national credit was never as secure and sound as now. Does he intentionally mean to deceive and delude us or is he simply incapable of understanding? The charitable thing would be to say that he does not know. Let us not accuse him of wilful falsehood. Many well intending people are not responsible.

ORGANIZED LABOR WILL VOTE AGAINST PROP. 22

San Francisco—Organized labor is mobilizing against Proposition No. 22, the Retail store license, on the November ballot, according to the announcement by California Chain Stores association, which made public a resolution against the measure adopted by the San Bernardino Central Labor Council.

The resolution denounced the proposed tax on chain stores as a measure which would raise the cost of living and bring hardship on the families of working men.

The resolution declares that the proposed tax on chain stores "would deter the recovery program now under way by the federal government" and that it "smacks of politics of a questionable type."

The tax would add unjustly to the tax bill of California chain stores, large and small, it was declared, and thus the price of food, clothing, drugs and other commodities recognized as necessities for the well being and comfort of the people, would advance in price, and the tax would be necessarily borne by the consumer."

The labor group condemned the tax further as unfair, discriminatory, and "against the interests of the working people, property owners and general welfare of city,, county, and state as a whole."

Chain stores in San Bernardino have manifested their good will and interest in organized labor, the council declared, and to curtail them, or put them out of business, "would materially work to the detriment of organized labor, both in the building trades and in the division of railroads."

Fact and Fancy

By Ye Country Correspondent

Paul Whitman working hard on a secret. We think they have him locked up cause we saw Kathrine Whitney at feeding time going to the rescue with viands robusto and a milk chaser.

The agility of Pete Peterson was manifested t'other night in no uncertain manner. While supping contentedly at the Oak Grove Cafe a small kitten sought refuge in his pants leg and Pete swung into an energetic dance pronto. Many of these steps had never before been witnessed by man or beast. If you don't believe us try a lively kitten in your own pant leg.

Johnny Ward, with a perfectly breath-taking Stetson hat, blue turtle-necked sweater and field boots appeared for a bit of trap shooting at Del Monte. His eye for shooting is not as good as his eye for dress for up to date we are told his best is 5 out of 25.

Helen Mueth was seen sipping a cup of tea at the Filmart and having her fortune told by a Japanese cookie. It said she was to have another trip to Europe in the very near future.

Millicent Sears burning up the road in a smart shiny black coupe. Her blue-ribboned Pom gazing out from the finery with great disdain on a world he doesn't care to have overmuch to do with.

Mrs. Franklin B. Sowell with a "I care not for the rotundity attitude" munching cheese crackers right on the avenue. How we hefty ones envy her.

Eloise Carwyle looking very smart in gray with a long cape was viewed meandering along Ocean avenue window shopping. She reads plays exceptionally well.

Lucy Bensberg suddenly and unexpectedly landed in the lap of Mother Earth and was greatly impressed with her duresse. So impressed in fact she has been limping ever since.

Dagmar Cerwin, with alert visage and supple center does everything well. We are clurious about the armfull of large, important looking envelopes she was mailing the other day.

Mrs. Doc Staniford looking mighty fine sporting a new permanent wave and wearing a large Landon button. An unbeatable combination.

Bertha Reynolds in a blue smock and floppy hat to match, intimidating snails in her garden. From the looks of her garden she does it successfully for her roses are among the outstanding ones of the Village.

And so for no good reason and appropos of nothing at all we end with a bit from Ambrose Bierce's literary definition of a bustle—it is a fictitious tale based upon a stern reality.

QUOTING FROM PSALMS AND PROVERBS

"He maketh me to lie down in green pastures: he leadeth me beside the still waters." Our great Humanitarian spoke these words. Where are the green pastures and the still waters? Twenty million on Relief and twelve million unemployed. $35,000,000,000 debt. One fourth of every dollar earned goes for taxes.

"Blessed is he that considereth the poor." Provides Relief but you must Vote as instructed or get fired. Every WPA worker knows this. Then it is not Relief, it is a bribe. Every dollar of the WPA funds come from the people. It is their money being spent in demoralizing the manhood of America. The New Deal penalizes the Poor.

"My tongue is the pen of a ready Writer." Most of the New Deal speeches are written by Charley Michelson. He is their ready writer.

"He putteth down one and setteth up another." The New Deal paid cotton planters millions for not growing cotton. These bounties in some cases amounted to large sums. Pretty soft for the planter being paid ten or twenty thousand dollars not to grow cotton. He was quite set up. How about the poor picker, the tenant farmer? They were put down. More than two million thrown out of employment and on Relief.

"Nor for the pestilence that walketh in darkness; nor for the destruction that wasteth wantonly by day and night.

"Peace be within thy walls, and prosperity within thy palaces." The New Deal paid a rich man $50,000 to not grow wheat on leased government land. Surely that meant prosperity within his palace. Even so the rich cotton planter is able to sit in the shade and sip his mint juleps. $20,000 a year for abstaining from cotton culture.

"Wisdom is the principal thing: therefore get wisdom; and with all thy getting, get understanding." Vote for Landon and Knox.

"The prudent man looketh well to his going." Prudence cries out from the house tops—Down with the New Deal—Save America.

devoted to their party but first of all loyalty to their country.

SUNBEAMS TWO

Strangely there are many Democrats who prefer to go along with the Communagogs in its frightful task of debauching America, paving the way for Communism. Why? They say because Roosevelt "has done something." Now just what has Roosevelt done? We may enumerate a few things. Debased our currency, gave us the 59 cent dollar. Confiscated the gold of the country imposing heavy losses upon the public. Increased the national debt to thirty five billion dollars. Wasted hundreds of millions of dollars upon useless and insane projects many of which have been abandoned. He has destroyed crops which has caused us to import immense quantities of grain and food products from foreign countries. He paid magnificent bounties to wealthy southern cotton planters and threw two million poor cotton pickers and tenant farmbers out of employement. He has preached class hatred, arrayed claiss against class with the result that America is an Armed camp today; Strikes, riots and labor unrest as never before known. He has given comfort and encouragement to Communism, protected and provided employment for recognized Communistic organizer and agitator.

True he has provided employment for a relatively small number of people on the WPA and other governmental agencies but at what price? Every employee must reciprocate with his ballot or lose his job.

He has built up a cult of relief addicts.

He has repudiated every pre-election pledge of reform and economy.

He has given us an artificial prosperity founded upon the exhaustion and waste of public funds and which will collapse when the "pump priming" terminates.

He has permitted his man Farley to allocate public funds in an attempt to Tammanyize the country.

He has made partisan politics paramount to the public welfare. He has capitalized human misery and natural calamities into political agencies. Relief is conducted along political lines and drouths, floods and fires are made to serve political purposes and the Public pays the bill. He has persistently misrepresented the condition of the nation's finances, omitting liabilities and duplicating or mis-stating the assets.

He has by subterfuge launched the country into inflation. Instead of printing "Green Backs" he has used Bonds which have been forced upon the banks.

We must grant that Franklin Delano Roosevelt has been a busy man. He has done "Something" and with a vengeance. He has jeojardized the security and safety of America.

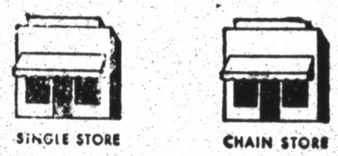
The Plea in mitigation that Roosevelt "has done something" is an admission of guilt which can only be justified by insanity.

VOTERS: *Don't be fooled*

No matter what they call it...

22 IS A TAX ON YOU!

On the November 3rd Ballot there will appear as Proposition 22, an innocent looking measure called the "Retail Store License." But don't be misled. It's a 1936 model hidden tax...a new scheme to stifle competition and raise prices. This simple story of two stores explains the plot.



(1) Here are 2 California retail stores. On the outside they look much alike. Each does a good business. But one is a single store, the other has brothers and sisters and is called a chain store.

(5) The middleman realizes that people trade at a chain store chiefly because it sells for 10 per cent less. Since he can't compete with the chain store method, the middleman wants to put chain stores out of business or force them to raise their prices.

(10) Of course the public will pay for these profits through an increase in prices on the necessities of life. But it's just a question of whether the middleman or the public takes the rap.

the house tops—Down with the New Deal—Save America.

"Behold how good and how pleasant it is for brethren to dwell together in unity." Beware of the New Deal's theme of hatred, of Class Cleavage and prejudicing the employee against the employer.

"The borrower is servant to the lender." Every dollar the New Deal squanders is borrowed from the people. The President of the United States is a servant of the public not our master. Without any sanction of authority he has borrowed billions of the people's money and wasted it in futile and insane experiments and political projects designed to advance his own prestige.

"Where there is no vision, the the people perish." How true it is. How germane to this day and hour. The New Deal in league with demagogues, communists and sophists have led us into a morass of Debt and Danger. We must have vision or we perish. We must have courage, conscience and cohesion. Party lines, mean nothing. Save America. Vote for Landon and Knox.

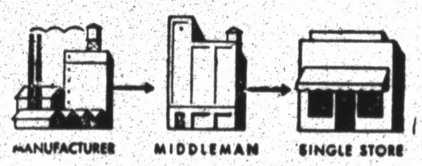
OVERSUBSCRIBED

Mr. Morganthau, Secretary of the Treasury, whose unpleasant task it is to raise the "jack" for the New Deal squanderers, reports that a recent issue of governemnt bonds has been nine times oversubscribed. This information was givein out to quiet the persistent skepticism in regard to the nation's credit. Why only nine times? Who bought these bonds? The banks under orders, subscribed for so many. They had to. In return for these bonds the banks turned over real money belonging to their depositors. What does this mean? INFLATION. Inflation of the most insidious, dangerous kind. The people's money, deposited in banks being surreptitiously converted into government bonds. In the end what will this mean? Prices will rise. The purchasing power of the dollar will diminish. Unemployment will increase. Strikes, riots and widespread disaster. New Deal thy name is Pestilence.

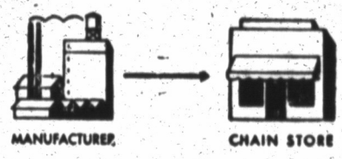
A PLEA IN MITIGATION

Thousands of honest Democrats have renounced the New Deal and have declared for Langdon. The list is an imposing one. The greatest names in the party, men distinguished in professional, industrial and commercial life have renounced their allegiance to the Communagog conspirators, intent upon Sovetizing America. Men with conscience and courage, men of culture, intelligence

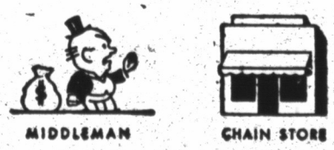
other has brothers and sisters and is called a chain store.



(2) **The SINGLE store charges ten per cent higher prices, because it gives credit and delivery service and because it buys through a middleman.**

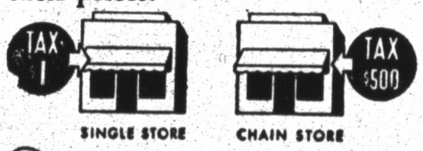


(3) **The CHAIN store charges ten per cent lower prices because it eliminates all frills, unnecessary services and in-between expenses and buys directly from producer or manufacturer.**



(4) **You may remember, at one time the middleman sold goods to all retailers. That was when the high cost of living was our biggest headache. But today the chain store eliminates the middleman and the middleman's profits. So the middleman is opposed to chain stores (wouldn't you be—if you were a middleman?)**

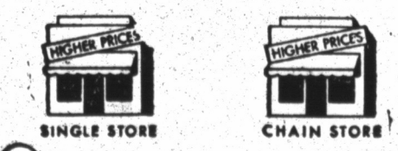
their prices.



(6) **Through the California Legislature he lobbies a bill called the "Retail Store License." This unfair bill would levy a special tax of $1.00 a year on single stores and $500.00 a year on chain stores.**

(7) **That, he figures, may put the chain store out of business so its customers will be forced to pay the higher prices at the single store. If not, the tax can be raised later to $1,500 or $2,500 per store.**

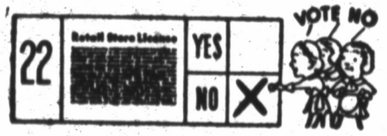
(8) **At least the chain store will be forced immediately to raise its prices and thus lose business.**



(9) **In either case competition will be less. So the single store can raise its prices and still get more business. This means fatter profits for the middleman who sells to the single store.**

Whether the middleman or the public takes the rap.

(11) **Who would suspect that an innocent thing like a Retail Store License was another scheme to tax the public and fatten the middleman's pocketbook? Voters might think it was some trifle like a dog license or a fishing license!**



(12) **But wait. Some of the public did suspect. Shortly after this hidden-tax bill passed the Legislature, 136,000 indignant California voters signed a petition that put it on the ballot at the next general election. Now the voters can say a word for themselves. We think that word will be "NO."**

(13) **So what it all adds up to is this: the innocent sounding Retail Store License is a scheme to subsidize the single store and wholesaler by taxing the public. 22 is a tax on *you*. Vote NO on Proposition 22.**

22 IS A TAX ON YOU!

I like everything about my new gas heater. It is so clean and good looking. In no time at all our house is as warm as toast. I like even the gas bills. Last winter I used my new gas heater a great deal but my gas bill was only a few dollars higher. Goodness knows, I don't run an extravagant household and budget out money closely. I can't see why any woman who needs better heating in her home would have anything except a clean, efficient, modern gas heater.

Woof! Woof!

"Who's there?"

"Doughnut."

"Doughnut who?"

"Doughnut chase the neighbor's cat."

(Every dog has his day and every cat has his night.)

Unlike most pooches I rather like cats. It's because I've been raisied with 'em I guess and understand their uncertain feline ways. Of course there are all kinds of cats, just as there are all kinds of dogs or horses or people. And it always strikes me as being dog-gone funny to hear a person say, "I don't like cats." They hight as well say, "I don't like people." Animals are just as individual as their human friends. Some are good and some are bad. Some are smart and some are stupid. Some are gentle and trusting and some are suspicious and rough. Although I must say most domestic animals reflect their environment. As for the cat family, it is clever and resourceful and only pretends great indifference. Cats are much more independent than us dogs and they are unlike us in that they dislike being taught tricks. They understand what's wanted of them all right, but they're too lazy to bother, so when some one says, "Kitty, shake hands." Kitty merely yawns and looks the other way. Maybe that's catty of her but it has the desired effect, and she is left alone for a little while longer to finish her nap and her delicious mousey dreams.

Then there's frightful agitation among our mortal friends when ever a couple of pussies greet each other on the back fence in the early morning hours. They have a cat-aleptic fit, so to speak, because there's so much yowling and screeching which they say keeps them awake. Strange but these very same humans never seem to think that they do a lot of caterwauling themselves at their rowdy parties, making hair-raising noises with their squawking musical instrumets and radios to say nothing of their own raucous voices. It's enough to make any self respecting cat's whiskers curl.!

Now this may be a cat-astrophe to Mr. and Mrs. Purrdy at their Meowlian Open Air Theatre, and may interfere somewhat with their natural ardor toward each other, but it won't hurt them otherwise. All you humans have to do to interrupt the love song is to light a string of fire-crackers and hurl them out the window. This simple little trick is guaranteed to remove their catnoids permanently. But perhaps you'd better not tell Bob Norton about that.

And so to my correspondence .A whimsical little not reached my desk this morning from Lotta Doggie. I quote, "Dear Sir Puppy Pooch, I'm pouring my heart out to you because you seem to be wise in the ways of the dog world and I need advice badly. I'm usually a very modest little girl, but I'm still unmarried and am afraid will die an old maid, for although there are times when I feel quite flirtatious, none of the males ever do more than give me a condescending sniff, then hightail it after some less attractive female. I simply can't understand it, unless, horrors, can it be possible that I have no sex-appeal?" Yours in distress, Lotta Doggie."

Dear Miss Doggie, As I do not know you personally, I find it extremely difficult to give you an adequate answer to this most delicate question . I'm sure you must have some sex-appeal, as most dogs do, but it probably hasn't been fully developed yet. I, therefore advise you to take acourse in how to be Charming, or you might try a stronger mouth-wash, or better still, write to Emily Post.

"Us dogs once had a meeting—we came from near and far.

Some of us came by autos, and others came by car.

Before we were allowed inside the hall, to have a look

We had to take off our woof-woofs off and hang them on a hook.

Now, hardly were we seated, each mother's son and sire

Before some dirty, yellow cur commenced to holler, "Fire!"

So out we rushed all in a bunch, we had no time to look.

Each dog at random grabbed a woof, from off the woof-woof hook.

We got our woof-woofs all mixed up, it made us awful sore.

We had to wear a woof-woof home, we'd never worn before.

So that's the reason why you see, as you go down the streets.

Each dog stop to swap a sniff with every dog it meets.

And that's why a dog will leave a nice fat bone,

And stop to sniff some other dog in hopes he'll find his own."

LOS ANGELES STATIONS WANT PAY FOR SPEECHES

According to word from Los Angeles, Harrison Holloway, manager of radio stations KFI and KECA, has flatly refused to allow the broadcast of "fireside chats" by President Roosevelt unless the same be paid for by the Democratic National committee.

Mr. Holloway stated that the stations will broadcast anything of civic interests but do no care for the chats, classing them as "nothing more than campaign speeches."

Golt News

California may well be proud of her sports men and women. The headlines of the astern newspapers have been full this week of the doin's of so many of the Golden State's best.

Lawson Little of San Francisco has proved his mettle again, and not content with winning most of the honors abroad and in America is now the new Canadian Open Golf Champion. This year's tournament was held in Toronto. Little played spectacular golf, shooting two sixty-nines on the last two rounds, making a total of 271 for the seventy-two hole match. This was good enough to lead the second best player, Jimmy Thomson by eight strokes to win. The Canadian Open is considered one of the major events in the golfing world and Little is to be congratulated.

In the tennis world it was Alice Marble, also of San Francisco, who made the headlines in her spectacular win for the Singles Championship defeating Helen Hull Jacobs, a four-time winner at Forest Hills, N. Y. Miss Marble has been fortunate in having as coach Miss Eleanor Tennant, who is a fine player herself. Many of the older Carmelites will remember Miss Tennant when she was a guest at the LaPlaya Hotel, ten years ago. Since then she has done splendid work in the tennis world, first, as coach at Bishop's School for Girls at La Jolla, and then on to Hollywood, where she is considered the best there is by the tennis fans of the film colony. Miss Marble has been her star pupil and being so young has a really brilliant future ahead of her in the tennis world.

Another San Francisco girl, Miss Margaret Osborne, came to the fore at Philadelphia to win the National Girl's Tennis Championship, by defeating Eleanor Dawson of Piedmont, California. Miss Barbara Winslow of Hollywood, who is better known in Carmel as Mrs. Ranold Cockburn's sister also went East to participate in this tournament but after playing fine tennis was defeated in the semi-finals. Still another San Franciscan who is now at Garden City, New York, competing in the National Amateur Golf Tournament is Mat Palacio, Jr., who, less than a month ago won the title of California Amateur Championship right here at Pebble Beach. Roger Kelly, the young Los Angeles golfing sensation is also there at Garden City trying for the same title.

All in all California is to be congratulated on the splendid quality of her young golf and tennis stars.

Almost every Sunday morning at the Monterey Peninsula Country club Dan Searle is found at or near the top in these popular golf sweepstake events. Other club members who can always be counted on to offer strong competition are Bud Brownell, J. W. A. Smith, R. W. Meals, J. M Goodeno, Hugh Dormody, Mort Henderson, Bill Kynoch, Colonel Wallace, F C. MacFarlane, Harrison Godwin and H. R. Youngman.

It is interesting to see that Golf Instruction Classes given by Fred Fry, the professional at the Municipal Golf Course at Pacific Grove, will start this week. This instruction is entirely free to all residents of the Monterey Peninsula and is in connection with the Pacific Grove evening school. Particularly popular will be the ladies classes which are to be held from three to five every Tuesday afternoon.

Mrs. Joseph Mayo of the Monterey Peninsula Country club won the Women's Invitational Golf Tournament last Friday with a gross score of 89. A field of about fifteen players turned out for the event.

"LOVE LIFE OF A COW" IS EXPENSIVE TO TAXPAYERS

Our energetic New Dealers, at the expense ot the taxpayer, have delved at some length and at an appreciable cost into the love life of the cow.

No little space is devoted to this engaging study in the first part of a report on the milk industry, prepared under the direction of Dr. Walton Hale Hamilton of Yale, Amherst, the Universities of Texas and Michigan, and the Robert Brookings Graduate School of Economics and Government. Dr. Hamilton, in October, 1935, was director of the new "consumers' cabinet," under the officially dead but still kicking, NRA. Dr. Hamilton's appointment was made by President Roosevelt, and this part of the report amounts to 24,000 words on 81 pages of typewritten matter.

This great beaureaucratic government has found that the love life of the cow has been destroyed by man's determination that she shall be a milk factory.

While the taxpayers chip in hard-earned money for all of these fantastic affairs of Government nowadays, Dr. Hamilton's report indicates that "the vast majority are just ordinary cows, who have few social ambitions and little opportunity to ascend the social ladder."

There are now about 25,000,000 dairy cows in the United States, and, think of it they are not social. You doubtless are glad to pay heavily for this information.

The study of the love life of a cow is on a par with an earlier analysis of the love life of a bull frog, which was printed by the Department of Agriculture, and aroused considerable amusement.

CHRISTIAN SCIENCE CHURCH

"Matter" will be the subject of the Lesson-Sermon Sunday, September 20, in all Churches of Christ, Scientist, branches of the Mother Church, the First Church of Christ, Scientist, in Boston, Mass.

The Golden Text will be: "That which is born of the flesh is flesh; and that which is born of the Spirit is spirit" (John 3:6). Other Bible citations will include: "But God hath chosen the foolish things of the world to confound the things which are mighty; . . . .That no flesh should glory in his presence" (Cor. 1:27, 29).

The Lesson-Sermon will also include the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "God's thoughts are perfect and eternal, are substance and Life. Material and temporal thoughts are human, involving error, and since God, Spirit, is the only cause, they lack a divine cause" (p. 286).

PEOPLE REELECT BOARD OF SANITARY DISTRICT

With an unusually heavy vote for a sanitary board election, 335 citizens of the Carmel Sanitary district went to the polls Monday and cast their votes in the main for the incumbents.

Thirty-seven other names were written in, among whom William McPhillips headed the list with 80 votes as board member and three as assessor. Although William Silva, and Kent Clark had requested that the board be reelected, they received sixteen votes each.

The official vote was as follows: Hugh Comstock, 268; Dr. McCarthy, 253; Allan Knight, 253, and Ranald Cockburn 244, and Frank Townsend 204.

Others who received from one to three were: Willard Whitney, Henry Dckenson, John Jordan, Lilly White, Mc McGilly, Clara B. Leidig, Earl Graft, Pon Chung, Don Hale, W. K. Bassett, Corum Jackson, Bert Comstock, Dr. Brownell, George Whitcomb, Alfred Wheldon, Dr. O'Dell, Harry Downie, Mrs. M. Dawson, Mrs. Arndt, Bernard Rowntree, E. L. Taylor, Walter Gaddum, D. Kinsell, Fred Leidig, John M. Dickenson, Louis Slevin, Byington Ford, Ella Winter.

For assessor of the district, Bernard Rowntree received 231 votes. Others written in were William McPhillips, Dr. Kehr, Richard Johnson, Peter Mawdsley, Barnet Segal, Hugh Comstock, Hal Bragg and Herbert John Morse.

Dr. and Mrs. John Downie of Pasadena are visitors in Carmel. Dr. Downie, formerly professor and dean of astronomy at the University of Minnesota, is past 90 years old and still is active as many half his age. Last year he and Mrs. Downie traveled more than 12,000 miles by motor throughout the United States.

P.T.A. GROUP HAS VERY FINE MEETING TUESDAY

A large and enthusiastic crowd gathered Tuesday afternoon at Sunset school for the opening meeting of the Parent-Teacher association.

As scheduled, talks were made by Adolphe G. E. Hanke, president of the board of trustees, and Supt. O. W. Bardarson, who introduced the teachers.

The music consisted of violin solos, Pete Steffens opening the program with Bouree by Bach, followed by Laurel Bixler with Romance by Rubenstein, with Miss Jean Crouch as accompanist. Unaccompanied, June Delight Canoles played a short hymn, "Sun of My Soul."

Hostesses at the social hour following the program, at which time tea was served, were Mrs. Ernest Bixler and Mrs. Millard Klein.

Mme. Pirenne will have the pleasure to meet her friends and all those interested to know more about her food products at the Weaver Meat Market on Tuesday, September 22. Mme. Pirenne intends to demonstrate the value of her goods by giving those who are not yet acquainted with her jams, jellies, vinaigrette and pickles an opportunity to taste them. Be sure to be there and tell your friends about it. Mission Meat Market, Ocean avenue, September 22.

Mr. and Mrs. John Coates, Casanova street, had as their house guests last week their daughter-in-law, Mrs. Cecil Coates, and little son, Lionel, of Los Altos. Mr. Coates came down for the week-end and returned home with his family Sunday evening.

Merle's Treasure Chest moved last Thursday to the Seven Arts building on Lincoln street, from the building next door to the library. Mrs. Hairs will manage the shop while Major Hairs is away on a business trip to Australia and England.

Mrs. J. V. Mon Pere and family have returned home after spending a month at Carmel. They were joined by Dr. Mon Pere for week-ends.—Fresno Bee, Sept. 11

Mr. and Mrs. Merrill Harrington of Carmel visited with friends here last Sunday. Mrs. Harrington was the former Miss Beatrice Proschold. —Guerneville Times, Sept. 4.

Knock, knock!
"Who's there?"
"Maine."
"Maine- who?"
"Maintained the Constitution of the United States."

Miss Charlotte Ingram has been a guest this week at the home of her sister, Mrs. G. W. McFarland. She will probably leave soon for a trip around the world.

Miss Virginia Wheeler, daughter of Mr. and Mrs. Willard W. Wheeler, has entered Scripps college in southern California for the coming term.

Under the Roosevelt New Deal, taxes on food now average 25 per cent on everything you eat.

Approximately one-third of the entire income of the American people is expended by the federal, state and local governments. Total income of U. S. citizens in 1935 was 49 billions; cost of national, state and local governments was more than 15 billion dollars.

New Deal deficit has climbed to $12,000,000 a day, and is still on the climb.

If you smoke one package of cigarettes a day, the New Deal will see to it that you pay $22 a year in taxes. Exactly 100 per cent.

If you own an automobile you pay 21 taxes on each gallon of gasoline; 17 taxes on each quart of oil; taxes of 2 1-2 cents a pound on tires; taxes of 4 cents a pound on tubes; a license fee; a personal property tax, plus the inevitable sales tax on everything. Taxes on petroleum products you buy for your car now total 205 separate taxes. Most of these taxes go to the New Deal.

You can't evade at least $300 a year in hidden taxes, plus sales taxes. In other words, $6.50 of each $20 pay goes for taxes today.

Have you entered any of the adult education classes given under auspices of the Monterey high school. There's still time.

Markham Johnston, Jr., has had as his guest recently his cousin, Dave Johnston, a student at Anapolis Naval academy.

On November 3 ,the taxpayers will have an opportunity to return the government to the Republican party. Republicans will protect the men and women who toil and produce. And will stop the gates thru which are flowing the life-blood of a tax-crushed people.

Taxpayers with a sense of the aesthetic doubtless will not object to making up the $14,762 necessary to build a lily pond in Placerville, Cal., nor will they be alarmed at the expenditure of $1,265 of federal funds for a community poultry house at New Lisbon, New Jersey. Or will they?

To paraphrase an old axiom, the New Dealers evidently believe that inconsistency is a jewel. While the Agricultural Adjustment Administration is sending benefit checks to Texas farmers for crops they have not grown, WPA announces that it will spend $2,226,500 on a community garden program in the Lone Star state.

Dr. and Mrs. H. F. Anderson, spent the past week-end in Carmel visiting with Mr. and Mrs. J. M. Wrightson.—Fresno Bee, Sept. 11.

Herman Crossman and sons have returned home from New Mexico where they spent the summer on their ranch near Las Vegas.

Promise

"We favor . . . the enactment of every constitutional measure that will aid farmers to receive for their basic farm commodities prices in excess of cost."

Democratic Platform 1932.

"I like to think that agricultural adjustment is an expression, in concrete form, of the human rights those farmer patriots sought to win when they stood at the bridge at Concord, when they proclaimed the Declaration of Independence and when they perpetuated these ideals by the adoption of the Constitution."

Franklin D. Roosevelt, Fremont, Nebraska, September 28, 1935.

Performance

The important measures enacted in pursuance of the platform pledge printed opposite were as follows:

1. Agricultural Adjustment Act. (Declared unconstitutional by the Supreme Court January 6, 1936.)

2. Kerr Tobacco Control Act. (Repealed by Congress February 10, 1936 to avoid an unfavorable decision by the Supreme Court on pending cases.)

3. Bankhead Cotton Act.
Finally it reaches the other shore,

(Repealed by Congres February 10, 1936 to avoid an unfavorable decision by the Supreme Court on pending cases).

4. The Potato Control Act.
(Repealed by Congrees Februay 10, 1936 because clearly unconstitutional under the Supreme Court's AAA decision).

MONTEREY COUNTY HIWAYS RECEIVE STATE ALLOTTMENT

Highway construction projects in the Central Coast Counties totaling $6,000,000 in estimated cost have been recommended to the California highway commission, for inclusion in the 1937-39 budget, by the statewide highway committee of the California State Chamber of Commerce, headed by Hubert M. Walker of San Francisco.

Projects in Monterey County and other Central Coast Counties were included in the program after a year's study by the Central Coast Highway committee under the chairmanship of Frank J. Booth of Paso Robles.

Members of that Committee from Monterey county are A. H. Clark, Soledad; Reeve Conover, Monterey; Dr. J. E. Leach, Howard Cozzens and Geo. S. Gould of Salinas; A. B. Jacobsen of Pacific Grove; E. A. Powell, King City; Jack Beaumont, Del Monte.

Projects proposed are as follows: Soledad Bridge. Replace with new bridge; Bradley to County, widen, realign and resurface; two miles south of Greenfield to Soledad, widen, realign and resurface; reconstruct portions of old high-crown road, San Ardo to King City; bridges, Big Creek, Mud Creek, and Big Sur Creek; Castroville to Prunedale, realign and resurface; and grade separation; Mustang grade to Peach Tree, realign and reconstruct.

REDWOOD CITY VISITOR LOSES HIS RING HERE

F. G. Bloomquist of Redwood City made a visit to Carmel, but while here lost his ring which he valued very highly. However, a little want ad in the Californian restored him his property, which had been found by A. C. Grimshaw of the Associated Station, Sixth and San Carlos.

FORTIER'S DRUG STORE IS CREDIT TO CARMEL

One of Carmel's lovely stores, and rapidly becoming one of the most popular, is the new drug store recently opened by George Fortier on Ocean avenue, next door to the post office.

Mr. Fortier has made every effort to install the kind of a store that would be acceptable to Carmel citizens in every respect. He has a beautiful stock, well arranged and combines low prices with quality.

Managing the Carmel store is Mr Knowlton, who is assisted by Miss Briggs and their friendly spirit creates new customers daily.

DEKKER HOME IN MISSION TRACK NEARS COMPLETION

The home of William Dekker in the beautiful Mission tract, adjoining the historic Mission grounds, is nearing completion and it is reported that other residences are to be started soon.

This tract will be one of the loveliest spots in Carmel, commanding as it does, a view of both the valley and the ocean.

CHAIRMEN APPOINTED FOR COMMUNITY CHEST DRIVE

Annual drive for the Community Chest will begin October 19 and continue through the 24th.

Chairmen named at a recent meeing of twenty-one officials, are: W. J. Crabbe, chairman of the drive, with Monterey as his special district; Mrs. Allen Griffen, Pebble Beach, and Mrs. Robert Stanton, Carmel.

KEYS LOST AND FOUND PERHAPS THEY'RE YOURS

Did you lose two keys on a ring? Two were found last week on Seventh near Ocean and are now at the office of the Californian. They have every appearance of being keys to chests containing fabulous wealth, and owner may have same by calling at the office, (and subscribing for the paper.)

GEORGE B. JORDAN SHOWS REAL CALIFORNIA LEMONS

Lemons that would cause a war between California and Florida were raised during this season by George B. Jordan of the Country Club, proprietor of Jordan's Shoe store on Dolores, and have been on display at several of the real estate offices this week.

Six on one stem at Mrs. Douglass' office on Dolores are of uniform size, about three inches in diamater, but Mr. Jordan hastily explained that they were the "small" ones. Samples of the crop may be seen at the Carmel Realty company offices on Ocean, in Las Tiendas.

Major Hairs left Tuesday from the port of San Francisco for an absence of several months during which time he will transact business in Australia where he owns a lovely shop. He will spend six weeks on board ship since the journey requires three weeks each way. Major Hairs will bring home some treasures for Merle's Treasure Chest.
